

The Whitworth
— Est 1890 —

CORPORATE

The Whitworth is a historic Grade II listed building set in the heart of the Derbyshire Dales.

The venue dates back to 1890 founded by Lady Whitworth, wife to famous industrialist Sir Joseph Whitworth. Nestled within 10 acres of beautiful parkland The Whitworth is conveniently located on the edge of the scenic Peak District.

Our Victorian venue is filled with charm, showcasing many of its original features including a grand oak staircase, vaulted ceilings and intricate fireplaces.

"We have done our best to make the present building not only convenient, but handsome, and such as we trust our friends and neighbours will enjoy, and their successors after them for generations to come."

Lady Whitworth
3rd January, 1891.

THE OLD LIBRARY
